Trade Price List

OF

FRESH NORTHERN GROWN

SEEDS

Tools, Florists' Supplies, Etc.,

FOR DEALERS ONLY.

1889.

J. B. ROOT & CO.

Seed Growers and Merchants,

NEW STORE 111 SOUTH FIRST STREET,

ROCKFORD, - - - ILLINOIS.

Our Retail Catalogue Free to all on Application.

OFFICE OF

J. B. ROOT & CO.,

Seed Farmers and Merchants.

ROCKFORD, ILLINOIS, December 17, 1888.

To our Friends and Customers:

We have the pleasure of handing you herewith our new **Wholesale Trade Price List for 1889.**

The seed crop in general this past season has been good and well matured. Some varieties are a little short. We feel confident that we never had a better matured crop, especially so of **Corn, Onions and Peas.** Vine seeds are light.

While we aim to have every variety true and pure, we can not warrant the crop or in any way be responsible for the failure of any seed—no person can warrant seeds to grow, as there are so many hindrances and freaks in Nature over which no man has control.

We test every variety, and none but what is up to our standard leaves our store. Our record book of tests is always open for inspection.

Our prices are exceedingly low for the choice grade of seeds we sell. Our stock is selected especially for the critical gardener's trade. Seed dealers appreciate this fact, and gardeners speak in glowing terms of our seeds. You will have calls for **Root's Northern Grown Seeds,** and you make a mistake if you do not keep them.

We send out no Seeds on Commission. Our seeds are of an entirely different grade, both in quality and growth, from those that are consigned to dealers. Good seeds have a ready market and are not sold on commission.

Are you a Florist? Are you a Nurseryman?

If so, why not sell seeds? Have you ever figured out the profit? Buy say one pound Radish seed for 35 cts. Retail 12 ounces at 10 cts. per oz., $1 20. The remaining 4 ozs. you divide up into 12 papers which retail at 5 cts. each, 60 cts, making in all $1 80—35=$1 45 net profit. Is not this profitable? What pays you better? Is not this better than selling on commission for 25 to 33 per cent? Your customers will be much better pleased by seeing you measure out the fresh seeds than getting the worthless stuff which is sent out to be sold on commission. Examine this list thoroughly, and see if it will not aid you in a lucrative business. Hundreds of our customers have built up a profitable trade in a short time by selling our seeds, tools, etc. Why not you?

If you are a Florist why not combine your wants all in one order to us, We can supply you. If our prices are not right we will adjust them satisfactorily. We want your trade, and will spare no pains to please you.

TERMS.—All orders subject to approval. Credit until June 1, 1889, subject to sight draft with exchange if not paid when due, will be given to responsible parties ordering $25.00 worth, or more, of seeds from this list. Five per cent. discount when cash accompanies the order, except for beans, corn, peas, grass and clover seed, potatoes, plants, onion sets, bird seed, field seeds, and implements, which we sell for net cash only—no discount. Orders from unknown correspondents must be accompanied with cash or satisfactory references. We are not responsible for perishable goods after we receive receipt from transportation company. When seeds, plants or bulbs are desired by mail, 8 cts. per pound must be added, other goods by mail, 16 cts. per lb.

We make no charge for boxes, packing or drayage, except where a special mention is made. Bags are charged for at cost, 5 to 20 cts. each.

We fill orders promptly and with as much care as we would want our own filled, and trust that we may be favored with a share of your esteemed trade at an early date.

Very Truly Yours,

J. B. ROOT & CO.
